## Notes

**Handgun:** includes 52,608 handguns known to have been imported for law enforcement and other non-military official uses.

**Muzzle-loader:** this commodity code is commonly excluded from tallies of modern firearms.

**Military:** firearms declared under the 'Military' commodity code are not included here.

**Other:** depending on the importer, this commodity category could include signal flares, perforating guns, captive-bolt guns and perhaps shark heads. It should not include a firearm easily used as a weapon, and is commonly excluded from 'firearm' import tallies.
